

Friends and Family Returns July 2022 – PPG Analysis for Adey and Dancy, Tarporley Practice

This latest analysis covers July 2022 and is the second analysis since the scheme was restarted in May 2022.

All comments were received on paper forms. The existence of the on-line comment route should continue to be advertised to patients.

Once again, comments have been categorised into the same 3 main headings. (Please note that all comments are anonymous, and only those comments where the patient gave permission to share them have been analysed.)

As a reminder, below is the definition of these categories.

Medical Service Comments – These consist of issues directly associated with seeing a GP or Nurse. They can probably only be addressed by the Medical Staff.

Administrative Service Comments – These consist of issues associated with trying to get an appointment to see a medical practitioner. They are mainly in the control of the Practice Manager. (Waiting time to get an appointment is also a function of the number of GPs)

Health Centre Environment Comments – These consist of issues associated with the 'experience' of visiting the Health Centre.

The number of Responses received during the period was 15.

Of these 13 rated the Practice **Very Good**; 2 rated the Practice **Good**; 0 rated the Practice **neither Good nor Poor**; 0 rated the Practice **Poor** and 0 rated the Practice **Very Poor**. These are the 5 new categorisations in the new scheme.

A total of 10 comments were made of which 7 expressed Positivity with the services received.

Issues for the Practice to address from the latest comments.

1. Consider whether patients could face fewer questions about their condition before getting a face to face with a GP.

See Table of Comments below for more detail.
